"With exploring minds, and faith; we grow and learn together."

19th November 2019

Dear Parents,

The school has purchased these books to provide another way to support your child in the learning of times tables. By the end of Year 3, it is expected that children should know the 2x, 3x, 4x, 5x, 8x and 10x tables. By the end of Year 4, it is expected that children know all times tables up to 12x. In June 2020, Year 4 children will be the first year group to take part in a national test which has been introduced.

Please complete one page per week as part of homework, focusing on one times table each week. You know the needs of your child better than anyone, so if you feel they need to practise the 3x table for a few weeks, please do so. Alternatively, if your child is already competent with times tables then you could introduce a timer where they can try to beat their time each week. So please use this book in the most suitable way for your child. Please return the book weekly, with homework, so staff can monitor progress.

Many thanks

Sarah Kitchin
Maths Subject Lead
