

## Teaching for Mastery at St James' CE Junior School Non-negotiables

### Features of a lesson

- Teaching the whole class together (exception of SEN children working substantially BE)
- Precise use of mathematical language
- Speaking in full sentences
- Small steps
- Procedural variation -How is variation in the examples used to draw attention to certain features and to provide opportunities for intelligent practice?
- Conceptual variation -How is the concept presented in different ways?
- Opportunities for children to go deeper
- Analysis of strategies
- Discussion including sharing and critiquing of answers and strategies
- Misconceptions addressed and planned for
- Concrete resources used in most lessons
- Problem solving embedded into the curriculum (not extra)
- Weekly arithmetic tests and Skills Checks
- Working wall displays
